

707 W. Broad St.
Columbus, OH 43222-1414

December 15, 2006

To: All EngineTech Industries (VM Diesels N.A.) and Graham Power Products/Graham Ford Customers.

Subject: Graham Power Products & EngineTech Industries Cooperative Alliance for VM Products

Graham Power Products, a division of Graham Ford, Inc., and EngineTech Industries are pleased to announce a new cooperative alliance on VM Diesel engines, parts and accessories. As many of you are aware, EngineTech's owners pioneered the VM Diesel engine program in North America beginning in 1970 and Graham Power Products was one of the first VM Distributors in 1971. No other VM operation in North America has the knowledge and experience in VM engines, parts and accessories than Graham Power Products and EngineTech Industries, including the most complete domestic inventories of VM products.

The Cooperative Alliance includes the consolidation of engines, parts and accessories at Graham Power Products Distribution Center in Columbus, Ohio. They will provide inventory, and customer support.

1. Orders will be processed and shipped from Graham Power Products.
2. Contact for orders will be Graham Power Products. Engine Tech will provide back up support for customer coordination and historical supply.
3. Charge accounts and account terms will be established with Graham Ford Inc. Shipping will be processed in a expeditious and cost effective manner.
4. Requests for VM literature and/or parts information are available from Graham Power Products.
5. Rebuild kits and long blocks are available for SUN HR494, and D700 engine series.
6. Inventory is available to support the overhaul of SU, RA, SV, V, DM, and other older VM series engines. Ducati parts are available in limited supply.

Graham Power Products has been a major distributor of Industrial engines since 1962. We are a full line Ford dealership (Sales, Parts, Service) for car, light, medium and heavy duty trucks. We also sell and service the full line of Sterling Trucks. You are invited to check out Graham Power Products at www.grahampowerusa.com. or call 1-800-837-7070, ext 6006 or direct at 614-464-6006.

EngineTech Industries invites you to contact the alliance as soon as possible for sales and service of VM Products
